

ALL BREEDS PUPPY

COMPLETE FOOD FOR ALL BREEDS PUPPIES

CHICKEN

PETTYS ALL BREEDS PUPPY CHICKEN is a complete and balanced food suitable for puppies of all sizes, formulated using chicken as the selected source of animal protein. Pettys kibble is made with our exclusive "Triple-layer" process which utilises different cooking times for the different raw materials to obtain more easily digestible starches. Moreover, animal proteins, minerals and vitamins are cold blended to preserve all their nutritional and organoleptic qualities, without submitting ingredients to an additional heat treatment. With Omega-3 fatty acids for retinal and cerebral development during the growing stages of puppies, and Omega-6 for a bright and shiny coat.

It contains FOS and MOS that promote gastrointestinal well-being and support a strong immune system, helping to develop the natural immune defenses, chondroitin, glucosamine and MSM (methyl-sulfonyl-methane) for the development of joints and bones during growth stages, and spirulina to help maintain the vitality and the general well-being of the dog. It also contains yucca schidigera which helps to reduce waste-odour.
